Description

Blinkit Recruitment 2023

Job Title: Computer Programmer

Location: Bengaluru, India

Reports To: Head of Engineering

Summary:

The Computer Programmer is responsible for developing and maintaining Blinkit's software applications. This includes tasks such as writing code, debugging, and testing. The ideal candidate will have a strong understanding of programming languages and software development principles.

Responsibilities:

- Write code for Blinkit's software applications
- Debug and test software applications
- Work with other engineers to design and implement new features
- Stay up-to-date on the latest programming languages and technologies

(adsbygoogle = window.adsbygoogle || []).push({});

Skills:

- Strong understanding of programming languages, such as Java, Python, and JavaScript
- Experience with software development principles, such as object-oriented programming and agile development
- Excellent problem-solving and debugging skills
- Ability to work independently and as part of a team

Qualifications:

- Bachelor's degree in computer science, engineering, or a related field
- 2+ years of experience in a software development role
