### Description

## PhonePe Jobs in India

**Job Title:** Computer Programmer

**Location:** Bangalore

**Reports To:** Head of Engineering

### Summary:

We are looking for a highly motivated and experienced Computer Programmer to join our team. The ideal candidate will have a strong understanding of computer programming principles and be able to develop and maintain high-quality software. They will also be able to work independently and as part of a team to achieve programming goals

### Responsibilities:

- **Design, develop, and maintain software for PhonePe's products and services:** This includes working with product managers to gather requirements, designing software solutions, and coding and testing software.
- **Work with other engineers to improve the scalability, performance, and security of PhonePe's platform:** This includes participating in code reviews, debugging software, and implementing security patches.
- **Stay up-to-date on the latest programming trends and**

**technologies:** This includes reading technical blogs and articles, attending conferences, and taking online courses.

- **Other duties as assigned:** This may include participating in training programs, and providing guidance to other programmers.
